## Notes to Statement of Financial Condition (Unaudited)

### June 30, 2022

---

#### 1. Organization

Barclays Capital Inc. (the “Company”), a Connecticut company, is a registered broker-dealer with the Securities and Exchange Commission (“SEC”) and the Financial Industry Regulatory Authority (“FINRA”), a futures commission merchant (“FCM”) registered with the Commodity Futures Trading Commission (“CFTC”), a municipal advisor registered with the SEC and Municipal Securities Rulemaking Board (“MSRB”) and a member of the Securities Investor Protection Corporation (“SIPC”). The Company is headquartered in New York, with registered branch offices in Afton, Atlanta, Boston, Charlotte, Chicago, Houston, Los Angeles, Media, Menlo Park, New York, San Juan, San Francisco, Seattle, Washington D.C., Whippany and Zionsville. The Company’s client base includes money managers, insurance companies, pension funds, hedge funds, depository institutions, corporations, trust banks, money market and mutual funds, domestic and international governmental agencies, and central banks.

In its capacity as a registered broker-dealer and FCM, the Company engages in a broad range of primary and secondary securities markets activities. It is an underwriter, placement agent and/or dealer for corporate debt and equity securities, municipal securities, government and agency securities, mortgage-backed-related instruments, other asset-backed securities, collateralized loan obligations, listed options and futures. It also serves as a prime broker providing clearance, settlement and financing services to its clients. The Company is a member of several securities and commodities exchanges. It is also a primary dealer in US government securities. In addition, the Company provides strategic and financial advisory services to its corporate clients.

The Company’s direct parent and sole stockholder is Barclays Group US Inc. (“BGUS”). BGUS is wholly owned by Barclays US LLC (“BUSLLC”), a direct subsidiary of Barclays US Holdings Limited (“BUSHL”). BUSHL is a non-US incorporated subsidiary directly owned by Barclays Bank PLC (“BBPLC”) but is a US resident for tax purposes. Both BUSLLC and BUSHL are ultimately owned by Barclays PLC (“BPLC”, and collectively with its subsidiaries, “Barclays PLC Group” or the “Group”). Both BBPLC and BPLC are United Kingdom (“UK”) companies, while BGUS is a Delaware corporation, BUSLLC is a Delaware limited liability company and BUSHL is a Cayman Islands limited company. BUSLLC is the US Intermediate Holding Company (“IHC”) for the US operations of BBPLC, as required by Regulation YY of the Board of Governors of the Federal Reserve System (“FRB”). BUSLLC and its subsidiaries collectively are subject to the FRB’s capital and leverage standards and annual Comprehensive Capital Analysis and Review and Horizontal Capital Examination assessments. The Company has significant intercompany transactions with related parties as described in Note 14, “Transactions with Affiliated Companies”.

#### 2. Significant Accounting Policies

##### **Basis of Presentation**

The Statement of Financial Condition has been prepared in accordance with accounting principles generally accepted in the United States of America (“US GAAP”). The US Dollar (“USD”) is the functional currency of the Company. In the opinion of management, the Statement of Financial Condition includes all adjustments necessary to present fairly the financial position at June 30, 2022.

##### **Use of Estimates**

Preparation of the Statement of Financial Condition in accordance with US GAAP requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities and certain disclosures at the date of the Statement of Financial Condition. Actual results could differ from these estimates.

# Barclays Capital Inc.

## Notes to Statement of Financial Condition (Unaudited)

### June 30, 2022

---

#### **Cash and Cash Equivalents**

Cash and cash equivalents are comprised of on demand deposits. Cash on deposit with financial institutions may, at times, exceed federal insurance limits.

#### **Cash and Cash Equivalents Segregated for Regulatory and Other Purposes**

Cash and cash equivalents segregated for regulatory and other purposes consist of cash and cash equivalents segregated under the Commodity Exchange Act (“CEA”) and in special reserve bank accounts for the exclusive benefit of customers and Proprietary Accounts of Broker-Dealers (“PAB”) under Rule 15c3-3 of the Securities Exchange Act of 1934 (“SEA”).

#### **Collateralized Agreements and Financings**

Collateralized agreements consist of Securities purchased under agreements to resell (“Resale Agreements”), Securities borrowed and Securities received as collateral, at fair value. Collateralized financings consist of Securities sold under agreements to repurchase (“Repurchase Agreements”), Securities loaned and Obligation to return securities received as collateral, at fair value. Where the requirements of Accounting Standards Codification (“ASC”) 210-20, *Balance Sheet Offsetting* (“ASC 210-20”) are met, collateralized agreements and collateralized financings are presented on a net-by-counterparty basis on the Statement of Financial Condition.

#### ▪ **Resale and Repurchase Agreements**

Resale and Repurchase Agreements are either carried at the amounts of cash advanced or received, plus accrued interest, or at their fair value pursuant to the fair value option based on management’s intent on managing such instruments on a fair value basis (for further description, see Note 5, “Fair Value Measurements”). Resale Agreements require the Company to deposit cash with the seller and to take possession of the purchased securities. Repurchase Agreements require the buyer to deposit cash with the Company and to take possession of the sold securities. The fair value of the securities sold or purchased is generally in excess of the cash received or provided. The Company monitors the fair value of securities purchased under Resale Agreements and securities sold under Repurchase Agreements on a daily basis, with additional collateral obtained or posted as necessary.

#### ▪ **Securities Borrowed and Loaned**

Securities borrowed and loaned can either be carried at the amounts of cash advanced or received, plus accrued interest, or at their fair value pursuant to the fair value option based on management’s intent on managing such instruments on a fair value basis (for further description, see Note 5, “Fair Value Measurements”). Securities borrowed transactions require the Company to deposit cash collateral with the lender. Securities loaned transactions require the borrower to deposit cash collateral with the Company. Cash collateral is generally in excess of the fair value of securities loaned or borrowed. The Company monitors the fair value of securities borrowed and loaned on a daily basis, with additional collateral obtained or posted as necessary.

#### ▪ **Securities Received as Collateral, at Fair Value and Obligation to Return Securities Received as Collateral, at Fair Value**

When the Company acts as the lender of securities in a securities lending agreement and the Company receives securities that can be either pledged or sold, the Company recognizes an asset, representing the fair value of the securities received as collateral, and a liability, representing the obligation to return those securities.

#### **Transfers of Financial Assets**

In general, transfers of financial assets are accounted for as sales in accordance with ASC 860, *Transfers and Servicing*, when the Company has relinquished control over the transferred assets. A transferor is considered to have relinquished control over the assets where (1) the transferred assets are legally isolated from the Company’s creditors, (2) the transferee can pledge or exchange the

# Barclays Capital Inc.

## Notes to Statement of Financial Condition (Unaudited)

### June 30, 2022

---

financial assets (or if the transferee is a securitization or asset-backed financing vehicle that is constrained from pledging or exchanging the assets it receives, the holder of the beneficial interests issued by the vehicle can pledge or exchange the beneficial interests), and (3) the Company does not maintain effective control of the transferred assets through the ability to repurchase them before their maturity, or have the ability to unilaterally cause the holder to return them (or if the transferee is a securitization or asset-backed financing vehicle that the Company cannot repurchase the beneficial interests before their maturity or have the ability to unilaterally cause the holder to return the third-party beneficial interests related to those transferred assets).

#### **Variable Interest Entities**

The Company prepares the Statement of Financial Condition in accordance with ASC 810, *Consolidation* ("ASC 810"). Variable interest entities ("VIEs") are entities that lack either of the following characteristics: (1) the total equity investment at risk is sufficient to enable the entity to finance its ongoing activities or (2) the equity investors have power to direct the most significant activities of the entity (the activities that impact the economic performance of the entity), the obligation to absorb expected losses of the entity, and the right to receive the residual returns of the entity. A controlling financial interest in a VIE is present when an enterprise has a variable interest, or a combination of variable interests, that provides the enterprise with (1) the power to direct the activities of the VIE that most significantly impact the VIE's economic performance and (2) the obligation to absorb the VIE's expected losses or receive expected residual returns, or both, that could potentially be significant to the VIE. The enterprise with a controlling financial interest, known as the primary beneficiary, consolidates the VIE. In accordance with ASC 810, the Company consolidates VIEs if it is the primary beneficiary. The Company reassesses its initial evaluation of whether an entity is a VIE when certain reconsideration events occur. The Company reassesses its determination of whether it is the primary beneficiary of a VIE on an ongoing basis based on current facts and circumstances.

#### **Fair Value Measurements**

The Company accounts for a significant portion of its financial instruments at fair value in accordance with ASC 820, *Fair Value Measurement* ("ASC 820").

The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). In the absence of an active market for a financial instrument, financial assets are marked to bid prices and financial liabilities are marked to offer prices. Where the Company acts as a market-maker, financial instruments are marked to mid-market prices. Fair value measurements do not include transaction costs.

The Company's policy with respect to transfers between levels of the fair value hierarchy is to recognize the transfers into and out of each level, other than those between Level 1 and Level 2, as of the end of the reporting period.

#### **Financial Instruments Owned, at Fair Value and Financial Instruments Sold, but Not Yet Purchased, at Fair Value**

The Company's Financial instruments owned, at fair value and Financial instruments sold, but not yet purchased, at fair value are comprised of securities purchased or sold short and derivatives, and are reflected in the Statement of Financial Condition on a trade-date basis.

#### **Customer Securities Transactions**

Securities owned by customers, including those that collateralize margin or other similar transactions and are held for clients in an agency or fiduciary capacity by the Company, are not considered assets of the Company and are not included in the Statement of Financial Condition. However, in the event of fails to deliver securities to or receive securities from the customer, the Company records

# Barclays Capital Inc.

## Notes to Statement of Financial Condition (Unaudited)

### June 30, 2022

---

corresponding Receivables from customers or Payables to customers, respectively. These customer securities transactions are recorded on a settlement-date basis of the associated transaction in the Statement of Financial Condition. The Company monitors the fair value of collateral held and the fair value of securities receivable from customers. It is the Company's policy to request and obtain additional collateral when appropriate.

#### **Receivables from and Payables to Brokers, Dealers and Clearing Organizations**

Receivables from and Payables to brokers, dealers and clearing organizations consist primarily of fails to deliver or receive securities, margin balances, cash deposits at clearing organizations, and amounts related to unsettled securities trading activity. In accordance with ASC 940, *Financial Services – Brokers and Dealers*, amounts related to regular-way unsettled trades are presented on a net basis.

#### **Receivables from and Payables to Customers**

Receivables from and Payables to customers include amounts due on cash and margin transactions and amounts related to unsettled securities trading activity. As a clearing member, the Company collects and remits margin (either cash or securities collateral) between its customers and clearing organizations. Where the Company obtains benefits from or controls cash balances, the Company recognizes the initial margin as Payables to customers and Receivables from brokers, dealers and clearing organizations. Margin loans are measured at fair value on the Statement of Financial Condition pursuant to a fair value option election, when they are managed on a fair value basis. For certain customers, the Company has agreed to waive its transformation rights with respect to such cash balances and pass through all interest paid by the clearing organization. The Company also does not guarantee and is not liable to those customers for the performance of the clearing organization. As a result, the Company does not reflect such amounts on its Statement of Financial Condition.

#### **Loss Contingencies**

In accordance with ASC 450, *Contingencies* ("ASC 450"), the Company establishes an accrual for all litigation and regulatory matters, including matters disclosed herein, when it believes it is probable that a loss has been incurred and the amount of the loss can be reasonably estimated. Once established, accruals are adjusted, as appropriate, in light of additional information. The amount of loss ultimately incurred in relation to those matters may be higher or lower than the amounts accrued for those matters.

#### **Share-Based Compensation**

The Company applies ASC 718, *Compensation – Stock Compensation*, which focuses primarily on accounting for transactions in which an entity obtains employee services in exchange for share-based payments.

#### **Employee Benefits**

The Company, along with other affiliates, participates in retirement benefit plans (the "Plan") sponsored by an affiliate. The Company accounts for its involvement in the Plan as multiemployer plans and only recognizes its allocated contributions to the Plan, in accordance with ASC 715, *Compensation – Retirement Benefits*.

#### **Postemployment Nonretirement Benefits**

The Company applies ASC 712, *Compensation – Nonretirement Postemployment Benefits* ("ASC 712") to its postemployment benefit plans. Obligations for postemployment benefits within the scope of ASC 712 are not accrued in accordance with ASC 450 as a contingent liability, because the amount cannot be reasonably estimated. Since the level of benefits provided is the same for any disabled employee regardless of years of service, the cost of those benefits is recognized when the event causing a long-term disability occurs and a reasonable estimate can be made.

**Barclays Capital Inc.**  
**Notes to Statement of Financial Condition (Unaudited)**  
**June 30, 2022**

---

**Income Taxes**

The Company is included in the consolidated US federal income tax return of BUSHL. The Company files combined and unitary state and local income tax returns with affiliates, as well as certain separate state and local filings. The Company computes tax provisions in accordance with ASC 740, *Income Taxes* (“ASC 740”) on a modified separate return method.

The Company is party to a tax sharing arrangement with BUSHL and BUSLLC, whereby certain current taxes are periodically cash settled. If applicable, the Company is reimbursed on a current basis by BUSHL and BUSLLC for the benefit generated from federal, combined and unitary state and local tax losses.

Deferred tax assets and deferred tax liabilities are recognized for temporary differences between the financial reporting and tax bases of the Company’s assets and liabilities. Deferred taxes are measured to reflect the tax rates at which future taxable amounts will likely be settled or realized. The effects of tax rate changes on deferred tax assets and deferred tax liabilities, as well as other changes in income tax laws are recognized in the period during which such changes are enacted.

Valuation allowances are established when necessary to reduce deferred tax assets to the amounts expected to be realized. The Company assesses its ability to realize deferred tax assets on a modified separate return method based on the availability of the four sources of taxable income discussed in ASC 740, including but not limited to projections of future taxable income, as well as the other factors of the filing groups of the relevant jurisdictions.

The Company’s deferred tax assets and deferred tax liabilities are presented on a net basis, where applicable, as a component of Other assets in the Statement of Financial Condition.

The Company follows guidance under ASC 740, which sets out a consistent framework to determine the appropriate level of tax benefit to record for uncertain tax positions.

ASC 740 prescribes a recognition threshold and a measurement aspect for the financial statement recognition and measurement of tax positions taken or expected to be taken on a tax return. Positions that meet the more-likely-than-not recognition criteria are measured to determine the amount which is greater than 50 percent likely to be realized upon settlement with a taxing authority. The Company’s policy is to record interest and penalties on income taxes in the tax provision.

The US Tax Cuts and Jobs Act introduced the base erosion anti-abuse tax (“BEAT”) effective January 1, 2018. BEAT seeks to impose a base erosion minimum tax in addition to a taxpayer’s regular tax liability where the taxpayer is an “applicable taxpayer” and to the extent that the BEAT tax liability exceeds the regular tax liability. BEAT applies to “applicable taxpayers” which are corporations, part of a group with at least \$500 million average annual gross receipts, and which have a “base erosion percentage” of 2% or higher. If these conditions are met, the BEAT liability is computed on a taxpayer level. The relevant group for the purposes of determining the base erosion percentage is the “controlled group,” which includes the consolidated US federal income tax group parented by BUSHL and BBPLC’s US branches of which the Company is a member. BUSHL’s policy is to apply a modified separate return method for determining whether it is an applicable taxpayer for BEAT purposes by looking to US federal income tax law which makes the determination for each member of the controlled group by determining if the controlled group is an applicable taxpayer.

**Barclays Capital Inc.**  
**Notes to Statement of Financial Condition (Unaudited)**  
**June 30, 2022**

---

**Recent Accounting Developments**

***Accounting Standards Adopted During 2022***

**Debt—Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging—Contracts in Entity’s Own Equity (Subtopic 815-40)**

In 2020, the FASB issued ASU 2020-06, *Debt—Debt with Conversion and Other Options (Subtopic 470-20) and Derivatives and Hedging—Contracts in Entity’s Own Equity (Subtopic 815-40)*, which amends the guidance on convertible instruments and the guidance on the derivatives scope exception for contracts in an entity’s own equity. The update aims to address the complexity associated with applying US GAAP for certain financial instruments with characteristics of liabilities and equity. For convertible instruments, the ASU reduces the number of accounting models and eliminates the requirement to separate certain embedded conversion features from the host contract. The ASU also amends the guidance for the derivatives scope exception for contracts in an entity’s own equity to reduce form-over-substance-based accounting conclusions and amends the related earnings per share guidance impacted by these updates.

The Company adopted ASU 2020-06 on January 1, 2022 with immaterial impact upon adoption.

***Accounting Standards Issued but not yet Adopted***

**Fair Value Measurement (Topic 820)—Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions**

In June 2022, the FASB issued ASU 2022-03, *Fair Value Measurement (Topic 820)- Fair Value Measurement of Equity Securities Subject to Contractual Sale Restrictions*. The amendments clarify that a contractual restriction on the sale of an equity security is not considered part of the unit of account of the equity security and, therefore, is not considered in measuring fair value. The amendments also clarify that an entity cannot, as a separate unit of account, recognize and measure a contractual sale restriction. The amendments also require certain disclosures for equity securities subject to contractual sale restrictions. The amendments are effective for the reporting period beginning on January 1, 2024.

The Company does not expect a material impact from the adoption of the ASU.

**3. Assets Segregated or Held in Separate or Sequestered Accounts for Regulatory and Other Purposes**

At June 30, 2022, assets segregated or held in separate accounts under SEC and CEA regulations are included in the Statement of Financial Condition as follows (in millions):

Cash and Cash Equivalents <sup>(a)</sup>	\$	3,599
Securities <sup>(b)</sup>		2,797
Receivables from brokers, dealers and clearing organizations		13,731
Total assets segregated	\$	<u>20,127</u>

(a) Includes cash of \$1,529 million segregated in special reserve bank accounts for the exclusive benefit of customers and proprietary accounts of broker-dealers under SEC’s Rule 15c3-3.

(b) Represents US Treasury securities segregated in special reserve bank accounts for the exclusive benefit of customers under SEC’s Rule 15c3-3.

**Barclays Capital Inc.**  
**Notes to Statement of Financial Condition (Unaudited)**  
**June 30, 2022**

**4. Financial Instruments**

The following table sets forth the Company's Financial instruments owned, at fair value, including those pledged as collateral and Financial instruments sold, but not yet purchased, at fair value, that are measured in accordance with ASC 820 as of June 30, 2022 (in millions):

<b>Fair Value of Financial Instruments:</b>	<b>Financial instruments owned, at fair value</b>	<b>Financial instruments sold, but not yet purchased, at fair value</b>
Money market instruments	\$ 1,579	\$ -
Government, agency and municipals:		
Government securities	7,154	5,695
Agency securities	5,009	21
Municipal securities	520	27
Mortgage-backed securities ("MBS") and other asset-backed securities ("ABS"):		
Commercial MBS	331	-
Residential MBS	188	-
Other ABS	461	10
Corporate debt securities	163	37
Equities and convertibles	4,571	3,116
Derivative contracts, net:		
Equity options	84	-
To-be-announced ("TBA") contracts	454	438
Other derivatives	72	64
	<u>\$ 20,586</u>	<u>\$ 9,408</u>

Financial instruments sold, but not yet purchased, at fair value represent obligations of the Company to deliver a specified security or cash at a contracted price. These transactions are subject to market risk if the market price of these financial instruments changes subsequent to the date of the Statement of Financial Condition.

**Derivative Contracts**

The derivative balances represent future commitments to exchange payment streams based on contract or notional amounts or to purchase or sell other financial instruments at specified terms on a specified date. Derivative contracts may be listed and traded on exchanges (referred to as exchange-traded) or privately negotiated directly between two parties (referred to as over-the-counter ("OTC") derivatives). Both exchange-traded and OTC derivatives are presented in the following table.

The Company enters into trading derivative contracts to satisfy the needs of its clients, for trading purposes and to manage the Company's exposure to market and credit risks resulting from its trading and market making activities. The Company also enters into futures contracts to economically hedge its interest rate exposure to US Treasury securities in which it invests. The Company entered into a guarantee with BBPLC that transfers the counterparty credit risk associated with the Company's derivative clearing clients, to BBPLC. The amount reimbursable under the contract as of June 30, 2022 is capped at \$800 million, and has been fully collateralized by BBPLC with cash, with a corresponding payable back to BBPLC. The cash collateral, which is on deposit at clearing organizations, and the payable are recognized in the Statement of Financial Condition in Receivables

**Barclays Capital Inc.**  
**Notes to Statement of Financial Condition (Unaudited)**  
**June 30, 2022**

from brokers, dealers and clearing organizations and Other liabilities, respectively. For additional information, see Note 14, "Transactions with Affiliated Companies".

Derivative transactions are measured at fair value, with derivative assets reported in the Statement of Financial Condition as Financial instruments owned, at fair value, and derivative liabilities as Financial instruments sold, but not yet purchased, at fair value.

The following table sets forth the fair value and the notional value of the Company's derivative contracts by major product type on a gross basis as of June 30, 2022 prior to the application of the impact of counterparty netting under ASC 210-20. Where the Company has entered into a legally enforceable netting agreement with counterparties, it may report derivative assets and liabilities on a net-by-counterparty basis in the Statement of Financial Condition. Net presentation of derivative assets and liabilities does not impact the classification of the derivative instruments within the fair value hierarchy.

Gross fair values in the following table exclude the effects of netting under enforceable netting agreements, and therefore are not representative of the Company's exposure (in millions):

	<u>Derivative Assets</u>	<u>Derivative Liabilities</u>	<u>Contract / Notional</u>
Equity options	\$ 16,121	\$ 16,037	\$ 445,941
TBA contracts	1,230	1,214	244,730
Other	72	64	41,125
<b>Gross fair value of derivatives contracts</b>	<u>\$ 17,423</u>	<u>\$ 17,315</u>	<u>\$ 731,796</u>

While the notional amounts disclosed above give an indication of the volume of the Company's derivative activity, the notional amount is not exchanged but rather used as a reference to calculate payments for most derivative transactions.

The following table presents the gross amounts, amounts offset, underlying collateral value of those agreements subject to enforceable netting agreements where netting was applied, and amounts not subject to enforceable netting agreements on Derivative Assets and Liabilities as of June 30, 2022 (in millions):

	<b>Amounts Subject to Enforceable Netting Arrangements</b>						
	<u>Effects of Offsetting on Statement of Financial Condition</u>			<u>Related Amounts Not Offset</u>			
	Gross Amounts	Amounts Offset <sup>(a)</sup>	Net Amounts Reported in the Statement of Financial Condition	Financial Collateral <sup>(b)</sup>	Net Amount		
<b>Derivative Assets</b>	\$ 17,127	\$ (16,813)	\$ 314	\$ 84	\$ 230	\$ 296	\$ 610
<b>Derivative Liabilities</b>	\$ 17,056	\$ (16,813)	\$ 243	\$ 14	\$ 229	\$ 259	\$ 502

- (a) Includes counterparty netting for equity options and certain TBA contracts for which the Company elected to offset under ASC 210-20.  
(b) Collateral is reflected at its fair value, but has been limited to the net exposure in the Statement of Financial Condition so as not to include any over-collateralization. Includes cash and financial instrument collateral related to arrangements subject to an enforceable master netting agreement where the netting was applied in the Statement of Financial Condition.

# Barclays Capital Inc.

## Notes to Statement of Financial Condition (Unaudited)

### June 30, 2022

---

As of June 30, 2022, the Company had no requirements to post additional collateral under derivative contracts in the event of a reduction in the Company's long-term credit rating, and was not subject to termination of these transactions in the event of such a reduction.

#### 5. Fair Value Measurements

ASC 820 sets forth a fair value hierarchy that categorizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy under ASC 820 are described below:

##### **Unadjusted Quoted Prices in Active Markets – Level 1**

Financial instruments are classified as Level 1 if their value is observable in an active market. Such instruments are valued by reference to unadjusted quoted prices for identical assets or liabilities in active markets where the quoted price is readily available, and the price represents actual and regularly occurring market transactions. An active market is one in which transactions occur with sufficient volume and frequency to provide pricing information on an ongoing basis.

##### **Valuation Technique Using Observable Inputs – Level 2**

Financial instruments classified as Level 2 are valued using quoted prices for identical instruments in markets that are not considered to be active, or quoted prices for similar assets or liabilities in active markets, or valuation techniques in which all significant inputs are observable, or can be corroborated by observable market data, either directly or indirectly, for substantially the full term of the financial instrument. Level 2 valuations include financial instruments, which are valued using market standard pricing techniques, such as options and TBA contracts that are commonly traded in markets where all the inputs to the market standard pricing models are observable. Reverse repurchase and repurchase agreements and other similar secured lending agreements are valued by discounting the expected future cash flows. The inputs to the valuation include interest rates and repo rates which are determined based on the specific parameters of the transaction.

##### **Valuation Technique Using Significant Unobservable Inputs – Level 3**

Financial instruments are classified as Level 3 if their valuation incorporates significant inputs that are not based on observable market data (unobservable inputs). Such inputs are generally determined based on observable inputs of a similar nature, historical observations on the level of the inputs, or other analytical techniques.

##### **Credit Risk**

Credit risk is an essential component of fair value. Cash products (e.g., bonds and loans) and derivative financial instruments (particularly those with significant future projected cash flows) are traded in the market at levels which reflect credit considerations. Credit exposures are adjusted to reflect mitigants, namely collateral agreements, which reduce exposures based on triggers and contractual posting requirements.

##### **Fair Value Hierarchy**

The following table presents the financial assets and liabilities at fair value as of June 30, 2022, by underlying instrument type and by the valuation hierarchy as described earlier in this Note (in millions):

**Barclays Capital Inc.**  
**Notes to Statement of Financial Condition (Unaudited)**  
**June 30, 2022**

	Fair Value Measurements on a Recurring Basis as of June 30, 2022				
	Level 1	Level 2	Level 3	Netting <sup>(a)</sup>	Total Fair Value

(a) Netting represents counterparty netting as permitted under US GAAP where a legally enforceable netting agreement exists. Securities purchased under agreements to resell and Securities sold under agreements to repurchase may be carried under fair value or amortized cost. For discussion on offsetting of collateralized agreements and financings, see Note 6, "Collateralized Agreements and Financings".

**Cash Instruments and Derivative Contracts**

Financial instruments are separated into two categories described below: cash instruments and derivative contracts.

**Barclays Capital Inc.**  
**Notes to Statement of Financial Condition (Unaudited)**  
**June 30, 2022**

---

**Cash Instruments**

The Company's cash instruments are predominantly classified within Level 1 or Level 2 of the fair value hierarchy.

**Level 1 Cash Instruments**

Level 1 cash instruments, valued based on unadjusted, quoted market prices for identical unrestricted instruments in active markets, include certain US government obligations and actively traded listed equities.

The Company defines active markets for equity instruments based on the average daily volume both in absolute terms and relative to the market capitalization for the instrument. The Company defines active markets for debt instruments based on the average daily volume and the number of days with trading activity.

The Company does not apply liquidity or concentration reserves for such instruments, even in situations where the Company holds a large position and a sale could reasonably impact the quoted price.

**Level 2 Cash Instruments**

Level 2 cash instruments include money market instruments, less liquid government bonds, most government agency obligations, MBS, and other ABS, corporate bonds, certain mortgage products, less liquid listed equities, state, municipal and provincial obligations, Securities purchased under agreements to resell, Securities borrowed, Receivables from customers, Securities sold under agreements to repurchase, Securities loaned, Payables to customers, and Other liabilities. Valuations for these types of instruments can be verified to observable inputs such as quoted market prices, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency.

**Level 3 Cash Instruments**

Certain cash instruments are classified within Level 3 of the fair value hierarchy if they trade infrequently and have little or no price transparency. Such instruments include less liquid MBS and ABS, less liquid corporate debt securities (including distressed debt instruments), and certain types of equity instruments, primarily private equity.

Absent evidence to the contrary, instruments classified within Level 3 of the fair value hierarchy are initially valued at the transaction price, which is considered to be the best initial estimate of fair value. Subsequent to the transaction date, the Company uses other methodologies to determine fair value, which vary based on the type of instrument, as described below.

Valuation is adjusted generally only when changes to inputs and assumptions are corroborated by evidence such as transactions in similar instruments, completed or pending third-party transactions in the underlying investment or comparable entities, other transactions across the capital structure, offerings in the equity or debt capital markets, and changes in financial ratios or expected cash flows. The valuation techniques and significant inputs used in determining the fair value of each class of cash instrument classified within Level 3 of the fair value hierarchy are as follows:

**Barclays Capital Inc.**  
**Notes to Statement of Financial Condition (Unaudited)**  
**June 30, 2022**

---

- **MBS, Other ABS and Corporate Debt Securities.** Valuations are generally based on relative value analyses. The significant inputs for these valuations include prices for similar instruments for which observable prices are available, and prices from broker quotes that are indicative or not corroborated by observable market data.
- **Equities and Convertibles.** For equities and convertibles, the Level 3 population is comprised of non-actively traded equities, convertible bonds, and private equity securities. Valuations are generally based on relative value analyses. The significant inputs for these valuations include prices for similar instruments for which observable prices are available, and prices from broker quotes that are indicative or not corroborated by observable market data.

**Derivative Contracts**

Exchange-traded derivatives, including equity options, typically fall within Level 1 or Level 2 of the fair value hierarchy, depending on whether they are deemed to be actively traded or not. OTC derivatives typically fall within Level 2 of the fair value hierarchy.

**Level 1 Derivatives**

Exchange-traded derivatives fall within Level 1 of the hierarchy if they are actively traded, and are valued at the exchange or quoted market prices. Currently, the Company's Level 1 derivatives primarily include exchange-traded options and futures, which exhibit the highest level of price transparency. Examples include US Treasury futures as well as options on indices and common corporate stock.

**Level 2 Derivatives**

Level 2 exchange-traded derivatives are not actively traded and/or are valued using models that are calibrated to observable market clearing levels and eliminate timing differences between the closing price of the exchange-traded derivatives and their underlying financial instruments.

Level 2 OTC derivatives, including TBA contracts, are valued using market transactions and other market evidence whenever possible, such as market-based inputs to models, model calibration to market clearing transactions, broker or dealer quotations, or alternative pricing sources with reasonable levels of price transparency. OTC derivatives are classified within Level 2 when all of the significant inputs can be corroborated to market evidence.

When appropriate, valuations are adjusted for various factors such as bid/offer spreads and credit considerations. Valuation adjustments are generally based on available market evidence, but can also be based on management's best estimate in the absence of such evidence.

Where models are used, the selection of a particular model to value an OTC derivative depends upon the contract terms of, and specific risks inherent in, the instrument as well as the availability of pricing information in the market. The Company generally uses similar models to value similar instruments. The pricing models take into account the contract terms (including maturity), as well as key inputs, depending upon the type of derivative and the nature of the underlying instrument, including market prices, yield curves, and correlations of such inputs. Valuations of these instruments are corroborated by market prices.

For OTC derivatives that trade in liquid markets, such as generic forwards, swaps and options, model inputs can generally be verified and model selection does not involve significant management judgment.

**Barclays Capital Inc.**  
**Notes to Statement of Financial Condition (Unaudited)**  
**June 30, 2022**

---

**Transfers Between Levels of the Fair Value Hierarchy**

During the six months ended June 30, 2022, the Company had the following transfers between levels of the fair value hierarchy:

- Equities and convertibles assets of \$5 million from level 3 to level 2 driven by increased availability of observable prices.
- Equities and convertibles assets of \$27 million from level 2 to level 3 driven by reduced availability of observable prices.
- Other ABS assets of \$32 million from level 2 to level 3 driven by reduced availability of observable prices.
- Commercial MBS assets of \$4 million from level 3 to level 2 driven by increased availability of observable prices.
- Commercial MBS assets of \$19 million from level 2 to level 3 driven by reduced availability of observable prices.
- Residential MBS assets of \$4 million from level 3 to level 2 driven by increased availability of observable prices.

There were also insignificant reclassifications among the levels for Equities and Convertibles, Corporate Debt Securities, Municipal Securities, Other ABS, and Residential MBS.

**Significant Unobservable Inputs Used in Level 3 Measurements**

The table below provides information on the valuation methodologies, significant unobservable inputs, as well as the range of those input values for financial instruments that are classified as Level 3 under the fair value hierarchy. The listed ranges represent the highest and lowest value of each respective input across all investments included within the financial instrument classifications listed below as of June 30, 2022. The disclosures below also include a description of the impact on the sensitivity of the fair value measurements of such instruments due to changes in significant unobservable inputs.

**Barclays Capital Inc.**  
**Notes to Statement of Financial Condition (Unaudited)**  
**June 30, 2022**

	Fair Value (in millions)	Valuation Methodology	Significant Unobservable Inputs	Range of Input Values		Weighted Average
				Low	High	
Money market instruments	\$ 42	Price-based	Price*	100%	100%	100%
Agency securities	4	Price-based	Price*	11%	109%	13%
Commercial MBS	33	Price-based	Price*	0%	103%	39%
Residential MBS	8	Price-based	Price*	2%	95%	87%
Other ABS	81	Price-based	Price*	0%	96%	67%
Corporate debt securities	2	Price-based	Price**	\$ 820	\$ 820	\$ 820
	10	Price-based	Price*	0%	100%	100%
	3	Price-based	Price**	\$ 100	\$ 100	\$ 100
Equities and convertibles	148	Price-based	Price**	\$ -	\$ 5,725	\$ 691
Equity options	(2)	Price-based	Price**	\$ -	\$ 12	\$ 3

\*Pricing information is presented as a percentage of par.  
\*\*Pricing information is presented on a dollar per unit basis.

Valuation uncertainty may arise from the uncertainty in the current market prices of instruments used for the valuation of a position or exposure. For cash instruments, the valuation input will typically be the instrument price. For cash instruments, in general, an increase in price would increase the fair value of the instrument.

The weighted averages of the input values presented in the table above are calculated based on the fair value of the instruments that the input is being used to value. The input range reflects the characteristics of the various instruments held by the Company and the relative distribution of instruments within the range of characteristics.

**Fair Value of Financial Instruments Not Carried at Fair Value**

The following table presents the carrying value, fair value, and related fair value hierarchy level for those financial instruments which are not carried at fair value in the Statement of Financial Condition as of June 30, 2022.

The carrying value of Cash and cash equivalents, Cash and cash equivalents segregated for regulatory and other purposes, Securities purchased under agreements to resell, Securities sold under agreements to repurchase, Short-term borrowings, Commercial paper, as well as receivables and payables arising in the ordinary course of business approximate fair value due to the relatively short period of time between their origination and expected maturity, contractual interest rates being set at current market rates or subject to repricing, and collectability. Fair value estimates for certain Securities purchased under agreements to resell and Securities sold under agreements to repurchase transactions are derived by utilizing a discounted cash flow methodology, which incorporates observable market prices.

Fair value of Long-term borrowings and Subordinated debt agreements is determined based on current interest rates and credit spreads for debt instruments with similar terms and maturities.

**Barclays Capital Inc.**  
**Notes to Statement of Financial Condition (Unaudited)**

\*Includes Receivables from customers, Accrued interest and dividend receivables and other financial assets not measured at fair value. Does not include nonfinancial assets such as intangible assets, deferred tax assets, current tax receivables and prepaid assets.

\*\*Includes Payables to customers, Accrued interest and dividend payables and other financial liabilities not measured at fair value. Does not include nonfinancial liabilities such as compensation and benefit arrangements, pension and current tax obligations.

## 6. Collateralized Agreements and Financings

The Company enters into collateralized agreements and financing transactions in order to, among other things, facilitate client activities, acquire securities to cover short positions and finance certain of the Company's assets.

Securities financing transactions are exposed to credit and liquidity risk. To manage these risks, the Company monitors the fair value of the underlying securities on a daily basis, with additional securities obtained or posted as collateral as necessary. Margin levels are initially established based upon the counterparty, the type of permissible collateral, and are monitored on an ongoing basis. Collateral typically consists of US Treasury and Agency securities and Equity securities.

Additionally, the Company, where appropriate, enters into master netting agreements and collateral agreements with counterparties that provide the Company, in the event of a counterparty default, with the right to net the counterparty's rights and obligations under such agreements and liquidate and set off collateral held by the Company against the net amount owed by the counterparty.

**Barclays Capital Inc.**  
**Notes to Statement of Financial Condition (Unaudited)**  
**June 30, 2022**

**Offsetting of Collateralized Agreements and Financings**

In accordance with ASC 210-20, the Company offsets financial assets and financial liabilities in the Statement of Financial Condition where there is a legally enforceable right to set off the recognized amounts and other offsetting requirements are met.

The following table presents the gross amounts, amounts offset, underlying collateral value of those agreements subject to enforceable netting agreements and amounts not subject to enforceable netting agreements on Resale and Repurchase Agreements, and Securities borrowed and loaned as of June 30, 2022.

The 'Net Amount' presented below is not intended to represent the Company's actual exposure to credit risk, as a variety of credit mitigation strategies are employed in addition to offsetting and collateral arrangements.

<i>(in millions)</i>	<b>Amounts Subject to Enforceable Netting Arrangements</b>						Amounts Not Subject to Enforceable Netting Agreements	Statement of Financial Condition Total <sup>(b)</sup>
	Effects of Offsetting on Statement of Financial Condition			Related Amounts Not Offset				
	Gross Amounts	Amounts Offset	Net Amounts Reported in the Statement of Financial Condition	Financial Collateral <sup>(a)</sup>	Net Amount			
<b>Resale Agreements</b>	\$ 56,056	\$ (33,872)	\$ 22,184	\$ 22,184	\$ -	\$ 38	\$ 22,222	
<b>Securities borrowed</b>	39,362	-	39,362	36,836	2,526	613	39,975	
<b>Total Assets</b>	<u>\$ 95,418</u>	<u>\$ (33,872)</u>	<u>\$ 61,546</u>	<u>\$ 59,020</u>	<u>\$ 2,526</u>	<u>\$ 651</u>	<u>\$ 62,197</u>	
<b>Repurchase Agreements</b>	\$ 61,782	\$ (33,872)	\$ 27,910	\$ 27,910	\$ -	\$ 73	\$ 27,983	
<b>Securities loaned</b>	22,358	-	22,358	20,668	1,690	2	22,360	
<b>Total Liabilities</b>	<u>\$ 84,140</u>	<u>\$ (33,872)</u>	<u>\$ 50,268</u>	<u>\$ 48,578</u>	<u>\$ 1,690</u>	<u>\$ 75</u>	<u>\$ 50,343</u>	

(a) Collateral is reflected at its fair value, but has been limited to the net exposure in the Statement of Financial Condition so as not to include any over-collateralization. Includes cash and financial instrument collateral related to arrangements subject to an enforceable master netting agreement; these amounts are not presented net in the Statement of Financial Condition because other US GAAP netting criteria are not met. Financial collateral typically comprises highly liquid securities which are legally transferred and can be liquidated in the event of counterparty default.

(b) The Statement of Financial Condition total is the sum of 'Net amounts reported in the Statement of Financial Condition' that are subject to enforceable netting arrangements and 'Amounts not subject to enforceable netting arrangements'.

**Repurchase Agreements and Securities Loaned by Collateral Type**

<i>(in millions)</i>	<b>As of June 30, 2022</b>	
	<b>Repurchase agreements</b>	<b>Securities loaned</b>

91 days - 1 year*	261	2
<b>Total</b>	<b>\$ 61,855</b>	<b>\$ 22,360</b>

\*Remaining contractual maturity

**7. Securitization Activities and Variable Interest Entities**

In the normal course of business, the Company has involvement with various types of VIEs. The Company's involvement with VIEs includes asset-backed securitization trusts and municipal bond vehicles.

**Asset-backed Securitizations**

**Non-consolidated VIEs**

**Market-making Activities**

The Company enters into transactions with VIEs structured by third parties through market-making activities. Where the Company does not have the power to direct the activities of the VIE that most significantly impact the VIE's economic performance, or a variable interest that could potentially be significant, the Company records these positions on its Statement of Financial Condition in the same manner as any other third-party transaction. The Company's maximum exposure to loss with respect to such activities is the recorded investment balance which at June 30, 2022 was \$4,957 million for agency securities, \$331 million for non-agency commercial mortgage-backed securities, \$188 million for non-agency residential mortgage-backed securities and \$461 million for other asset-backed securities.

During the six months ended June 30, 2022, the Company did not transfer any assets into securitization vehicles.

**Collateralized Loan Obligations**

The Company enters into transactions with VIEs where an affiliate may participate in warehousing structures for collateralized loan obligation ("CLO") securitization transactions, by providing senior financing to these entities during the warehousing phase. CLO trusts are actively managed by a third-party collateral manager whose primary role includes determining what loans are to be acquired or sold based on the eligibility criteria and concentration limitations set forth by the warehouse agreement. The assets purchased into the CLO trust are sourced from primary and secondary markets, which may include Barclays. The Company may provide structuring and placement services for the VIE and although not obligated, the Company generally makes a market in the securitizations issued by the CLO trusts.

The Company had no exposure to loss in these CLO trusts as of June 30, 2022.

**Municipal Bond Vehicles**

The Company establishes Tender Option Bond ("TOB") trusts through which investors finance their municipal fixed income instruments at short-term rates. TOB trusts hold taxable and tax-exempt fixed income instruments issued by state, local, or other municipalities. The trusts are typically single-issuer trusts whose assets are either originated or purchased via the primary and secondary market. To fund the purchase of their assets, the trusts issue long-term senior floating rate notes ("Floaters") and junior residual securities ("Residuals"). Trusts where the Residuals are retained by a third-party

**Barclays Capital Inc.**  
**Notes to Statement of Financial Condition (Unaudited)**  
**June 30, 2022**

---

investor are considered client TOBs, while trusts where the Residuals are retained by the Company or an affiliate are considered proprietary TOBs. The holder of the Residuals generally has the unilateral ability to direct decisions that significantly impact the economic performance of the trusts through its ability to liquidate the TOB trust and ultimately direct the sale of the municipal fixed income instruments owned by the trust, except for certain proprietary TOBs where the liquidity provider has assumed the ability to unilaterally liquidate the TOB trust. The Company or its affiliates may provide various services to the TOB trusts, including serving as placement agent, remarketing agent, liquidity provider, administrator or some combination of the above, in exchange for fees earned from the trusts. BBPLC serves as the liquidity provider to the TOB trusts. As liquidity provider BBPLC may provide a standby purchase agreement, an irrevocable letter of credit, a revolving credit agreement or another form of liquidity arrangement, so that the trusts can repurchase Floaters, or provide sufficient funds to redeem the Floaters in the event of a failed remarketing and the trusts are unwound. The Company serves as remarketing agent for the Floaters.

The Company considers the TOB trusts to be VIEs since they lack sufficient equity capitalization and rely on financing from trust-issued securities to fund their activities. The trusts are not consolidated by the Company where third-party investors or an affiliate hold the residual interests in the trusts, as the Company's involvement with the trusts is limited to its role as remarketing agent and the Company does not control the trusts.

Floater holders have an option to tender the Floaters they hold back to the trust periodically. The Company, in its capacity as a remarketing agent, facilitates the sale of the Floaters to third parties at inception of the trust, facilitates the reset of the Floater coupon, and remarkets any tendered Floaters. If Floaters are tendered and the Company (in its role as remarketing agent) is unable to find a new investor within a specified period of time, it can declare a failed remarketing (in which case the trust is unwound) or may choose to buy the Floaters into its own inventory and may continue to try to sell them to a third-party investor. No failed remarketings on trusts formed by the Company were declared during the six months ended June 30, 2022.

As of June 30, 2022, the Company held no residual interests and therefore did not consolidate any TOB trusts. During the six months ended June 30, 2022, the Company sold \$50 million of municipal securities into TOB trusts which were consolidated by an affiliate. The Company de-recognized the securities from its Statement of Financial Condition as it has relinquished control over these securities.

As of June 30, 2022, the Company had no exposure to loss related to the TOB programs as its only involvement with these trusts is in the capacity of a remarketing agent.

The table below presents the Company's on-balance sheet exposure and maximum exposure to loss in non-consolidated VIEs as of June 30, 2022 (in millions):

	<b><u>Asset-Backed Securizations</u></b>
Financial instruments owned, at fair value	\$ 5,937
<b>Total Assets</b>	<b><u>\$ 5,937</u></b>
<b>Maximum exposure to loss</b>	<b><u>\$ 5,937</u></b>

For more information on VIEs see Note 2, "Significant Accounting Policies". For discussion on fair value of assets on the Statement of Financial Condition related to VIEs, see Note 5, "Fair Value Measurements".

**Barclays Capital Inc.**  
**Notes to Statement of Financial Condition (Unaudited)**  
**June 30, 2022**

---

**8. Receivables from and Payables to Brokers, Dealers and Clearing Organizations**

Receivables from and Payables to brokers, dealers and clearing organizations, as reported in the Statement of Financial Condition at June 30, 2022, consist of the following (in millions):

	<b>Receivables from brokers, dealers and clearing organizations</b>	<b>Payables to brokers, dealers and clearing organizations</b>
Margin receivable/payable	\$ 15,035	\$ 565
Securities failed to deliver/receive	2,596	2,414
Fees and commissions receivable/payable	48	163
Trade date settlement receivable/payable	448	-
Other	108	82
	<u>\$ 18,235</u>	<u>\$ 3,224</u>

**9. Other Assets and Other Liabilities**

At June 30, 2022, Other assets primarily consisted of net deferred tax assets of \$206 million, receivables from affiliates of \$180 million, current tax receivable of \$27 million and prepaid expenses of \$12 million. Other liabilities primarily consisted of cash collateral payable to an affiliate of \$778 million, accrued compensation of \$366 million, payables to affiliates of \$247 million, accrued operating expenses and provisions of \$223 million and current tax liabilities of \$143 million.

**10. Income Taxes**

At June 30, 2022, the Company had \$206 million of net deferred tax assets. This balance is primarily comprised of timing differences related to deferred compensation, stock-based compensation, bonus compensation and intangible assets acquired as part of the Lehman Brothers acquisition.

The Company is required to assess the likelihood that deferred tax assets will be realized using more-likely-than-not criteria. To the extent this criteria is not met, the Company is required to establish a valuation allowance against the deferred tax assets. A valuation allowance of \$10 million was recorded at June 30, 2022 related to certain state net operating losses that the Company believes do not meet the more-likely-than-not criteria. Since December 31, 2021, the valuation allowance increased by less than \$1 million.

The Company has state net operating losses of \$144 million on a post-apportionment basis, expiring in the years beginning after 2022. The tax-effected value of the state net operating losses in jurisdictions where BCI has a significant presence for tax purposes is \$11 million. The tax effect is computed based on apportionment factors and expected tax rates applicable to the year of expected utilization.

State taxes receivable of \$27 million is included in Other assets on the Statement of Financial Condition as of June 30, 2022.

The Company's unrecognized tax benefits, including accrued interest of \$5 million, are recorded in the Statement of Financial Condition as current income taxes payable, included in Other liabilities, and as deferred income tax assets, included in Other assets. The Company has not recorded any amounts for penalties related to its unrecognized tax benefits.

BGUS' consolidated US federal corporate income tax returns for the years 2013 and after remain subject to examination. The most significant state and local filings, New York State and New York

**Barclays Capital Inc.**  
**Notes to Statement of Financial Condition (Unaudited)**  
**June 30, 2022**

---

City, are subject to examination for the years 2012 and after. In regards to the Company, New York State and New York City are open for 2009 for a capital loss carryback claim.

When the tax return examinations by US federal, state, or local tax authorities are concluded, it is possible that the amount of accrued liability for unrecognized tax benefits could change.

**11. Short-Term Borrowings and Commercial Paper**

**Short-Term Borrowings**

At June 30, 2022, Short-term borrowings consisted of uncollateralized loans payable to affiliates of \$3,576 million, and bank overdrafts payable primarily to third parties of \$54 million.

The uncollateralized loans from affiliates represent \$3,576 million utilized on an uncommitted and unsecured money market line of credit of \$8,500 million with BBPLC, primarily to support the short-term funding requirements of the Company. The facility limit was amended from \$10,000 million to \$8,500 million in January 2022. Loans drawn from the facility bear interest at rates based on the Group's internal funding curve. Long-term borrowings on this facility are detailed in Note 12, "Long-Term Borrowings".

For discussion on the fair value of the borrowings, see Note 5, "Fair Value Measurements".

**Commercial Paper**

The Company has a commercial paper program, which aids in the diversification of funding sources. As of June 30, 2022, the Company had \$1,520 million of Commercial paper outstanding, with maturity dates ranging from July 11, 2022 to May 25, 2023.

For discussion on the fair value of Commercial paper, see Note 5, "Fair Value Measurements".

**12. Long-Term Borrowings**

Long-term borrowings consist of loans with original contractual maturities greater than one year. The Company has a committed revolving credit facility of \$3,500 million with BGUS. As of June 30, 2022, \$1,500 million was drawn to support funding requirements. Borrowings from the facility bear interest at rates based on USD London Interbank Offered Rate ("LIBOR") plus applicable margin. The Company also pays a commitment fee on any daily average unused portion of the committed facility.

The Company has a \$500 million committed revolving credit facility with BGUS, which matures on October 24, 2024, that can be fully drawn as either senior or subordinated debt, or a combination thereof, during the life of the facility. The facility was fully drawn in the form of subordinated debt before it was converted to senior debt on February 10, 2022 upon regulatory approval. Borrowings from the facility bear interest at rates based on USD LIBOR plus the respective margin applicable for senior or subordinated debt.

As of June 30, 2022, the Company utilized \$1,005 million from the \$8,500 million facility with BBPLC referenced in Note 11, "Short-Term Borrowings and Commercial Paper", to support funding requirements of the Company. These loans bear interest at rates based on the Group's internal funding curve. The arrangement of \$1,005 million consists of \$255 million maturing on April 11, 2024, \$250 million maturing on March 12, 2026, \$250 million maturing on January 6, 2027 and \$250 million maturing on March 9, 2027.

**Barclays Capital Inc.**  
**Notes to Statement of Financial Condition (Unaudited)**  
**June 30, 2022**

---

In addition, the Company had long-term borrowings from BBPLC in the form of an unsecured fixed term financing arrangement totaling \$1,500 million with \$500 million maturing on January 7, 2026, \$500 million maturing on May 7, 2026 and \$500 million maturing on September 8, 2026, all of which bear interest based on USD LIBOR plus an applicable margin.

The Company also has long-term borrowing arrangements with BBPLC for \$143 million maturing on September 3, 2024, and with an affiliate for \$218 million maturing on September 3, 2024 and \$500 million maturing on September 1, 2026.

The Company also has an uncommitted and unsecured money market line of credit of \$1,500 million with BGUS. Loans drawn from the facility would bear interest at rates based on Secured Overnight Financing Rate plus applicable margin. The Company had not drawn upon this facility as of June 30, 2022.

For discussion on the fair value of the borrowings, see Note 5, "Fair Value Measurements".

**13. Subordinated Debt**

As of June 30, 2022, the Company had the following outstanding subordinated debt with BGUS (in millions):

<u>Carrying Value</u>	<u>Contractual Maturity Date</u>
\$ 875	October 26, 2030
875	January 26, 2031
1,250	April 26, 2031
1,250	July 26, 2031
<u>\$ 4,250</u>	

The four loans totaling \$4,250 million, bear interest at rates based on 3-month USD LIBOR, plus applicable margin. Under the provisions of these loans, the maturity dates will be extended by an additional year, unless BGUS notifies the Company and FINRA seven months in advance of the contractual maturity dates of its intention not to permit the one-year extensions.

For discussion on the fair value of the borrowings, see Note 5, "Fair Value Measurements".

**14. Transactions with Affiliated Companies**

The Company enters into securities transactions and other transactions with affiliates. At June 30, 2022, balances with such affiliates were included in the Statement of Financial Condition line items as follows (in millions):

<u>Assets</u>	
Cash and cash equivalents	\$ 289
Securities purchased under agreements to resell	12,719
Securities borrowed	10,616
Securities received as collateral, at fair value	50
Financial instruments owned, at fair value	4
Receivables from brokers, dealers and clearing organizations	3,257
Receivables from customers	2,991
Other assets	180

**Barclays Capital Inc.**  
**Notes to Statement of Financial Condition (Unaudited)**  
**June 30, 2022**

---

**Liabilities**

Securities sold under agreements to repurchase	16,426
Securities loaned	19,629
Obligation to return securities received as collateral, at fair value	50
Financial instruments sold, but not yet purchased, at fair value	45
Payables to brokers, dealers and clearing organizations	584
Payables to customers	6,460
Short-term borrowings	3,580
Accrued interest and dividend payables	37
Other liabilities	1,028
Long-term borrowings	5,366
Subordinated debt	4,250

At June 30, 2022, the Company had Short-term borrowings of \$3,576 million drawn from an uncommitted and unsecured money market line of credit with BBPLC as described in Note 11, "Short-Term Borrowings and Commercial Paper". The Company also had Long-term borrowings with BBPLC of \$2,505 million, comprised of a \$1,500 million fixed term loan and \$1,005 million related to the utilized portion of an uncommitted and unsecured money market line of credit and \$2,000 million drawn from committed revolving credit facilities with BGUS. In addition, the Company had long-term borrowing arrangements with BBPLC for \$143 million, and an affiliate for \$718 million, as described in Note 12, "Long-Term Borrowings".

At June 30, 2022, the Company had four outstanding Subordinated debt arrangements with BGUS totaling \$4,250 million. For more information on the \$4,250 million Subordinated debt, see Note 13, "Subordinated Debt".

During the six months ended June 30, 2022, under its intercompany tax sharing agreement, the Company transferred \$1 million from BUSLLC and \$48 million to BUSHL relating to current federal and state income taxes, the settlement of which is arranged periodically. For more information, refer to Note 2, "Significant Accounting Policies" and Note 10, "Income Taxes".

During the six months ended June 30, 2022, the Company sold certain receivables from investment banking clients to an affiliate. These receivables were sold for a fair value of approximately \$225 million.

As of June 30, 2022, the Company held \$83,711 million of affiliates' financial instruments as collateral, primarily in connection with Resale Agreements, Securities borrowed and customer margin loans.

At June 30, 2022, the Company had placed \$875 million of its affiliates' securities and \$1,505 million of its affiliates' cash and cash equivalents on deposit with clearing organizations for trade facilitation purposes.

BBPLC has provided guarantees to certain third parties over their exposure to the Company in relation to futures trading or prime services financing activities.

The Company entered into a guarantee with BBPLC which transfers the counterparty credit risk associated with certain of the Company's derivative clearing clients, to BBPLC. The amount reimbursable under the contract is capped at \$800 million, and the full amount has been fully collateralized by BBPLC. The Company elected the fair value option on the obligation to return the collateral, as it is managed on a fair value basis. As of June 30, 2022, the fair value was \$778 million. For additional information, refer to Note 4, "Financial Instruments", and Note 5, "Fair Value Measurements".

# Barclays Capital Inc.

## Notes to Statement of Financial Condition (Unaudited)

### June 30, 2022

---

The Company has a chaperoning arrangement with an affiliated Barclays entity for purchases, sales and/or collateralized financing trades.

The Company also provides custody services to certain Barclays affiliates, and receives custody services from certain foreign affiliates for its clients in the respective markets.

#### 15. Benefit Plans

##### **Defined Benefit Pension Plan**

The Company provides pension benefits to a closed group of eligible employees through participation in a defined benefit pension plan (the "Plan") sponsored by Barclays Services Corporation ("BSC"), a wholly owned subsidiary of BUSLLC which provides infrastructure support and services to affiliates. The Plan is comprised of a funded US tax-qualified pension plan ("U.S. Pension Plan") and an unfunded non-qualified restoration pension plan. All eligible employees participate in the Plan on a non-contributory basis, and are fully vested after five years of service. The Company makes contributions to the U.S. Pension Plan based upon the minimum funding standards under the Internal Revenue Code. Employees hired on or after September 22, 2008 are not eligible to participate in the Plan. During the third quarter of 2012, the Plan was frozen such that existing participants would not accrue any additional benefits.

##### **Postretirement Plan**

The Company provides an unfunded postretirement benefits plan for eligible employees through participation in the Barclays Retiree Medical, Dental and Life Insurance Plan sponsored by BSC. Only employees hired on or before March 31, 1997 are eligible for postretirement benefits.

##### **Postemployment Plan**

The Company provides unfunded postemployment benefits for eligible employees through participation in the Barclays Welfare Benefits/Cafeteria Plan sponsored by BSC. The postemployment plan provides medical, dental and life insurance benefits to employees who become disabled under the Barclays Long-term Disability ("LTD") program. Employees whose disability commenced prior to January 1, 2018 are provided with medical, dental and life insurance benefits until the earlier of age 65, recovery or death. Employees whose disability commenced on or after January 1, 2018 are provided with medical, dental and life insurance benefits until the earlier of 24 months from the date of LTD commencement, recovery, death or age 65.

##### **401(k) Defined Contribution Plan**

The Company provides 401(k) benefits for eligible employees through participation in a defined contribution plan of BSC. Eligible employees may elect to participate in the 401(k) Plan at any time during the year. Employees who formally elect to participate may contribute any amount from 1% to 50% of their eligible compensation each pay period as pre-tax contributions, Roth 401(k) after-tax contributions, or a combination. The combined pre-tax and Roth 401(k) after-tax contributions are subject to the Internal Revenue Service ("IRS") limit of \$20,500 in 2022. Additionally, employees who elect to participate may contribute 1% to 6% of their eligible compensation as traditional after-tax contributions to the 401(k) Plan each pay period. The combined pre-tax, Roth 401(k) after-tax and traditional after-tax contributions may not exceed 56% of eligible compensation. Employees aged 50 or older who have reached the 401(k) Plan or IRS maximum allowable pre-tax and/or Roth 401(k) after-tax contribution limit in a plan year, may contribute catch-up contributions up to \$6,500 for 2022 on a pre-tax or Roth 401(k) after-tax basis up to the IRS catch-up limit for the year.

The Company matches all or a portion of employee pre-tax and/or Roth 401(k) after-tax contributions through employer matching contributions. For every \$1.00 an employee contributes on a pre-tax and/or Roth 401(k) after-tax basis (up to 6% of eligible compensation each pay period), the Company contributes \$1.00 (\$1.50 for employees whose annualized eligible compensation is \$60,000 or less).

**Barclays Capital Inc.**  
**Notes to Statement of Financial Condition (Unaudited)**  
**June 30, 2022**

---

The maximum annual match available under the 401(k) Plan is \$18,300 (6% of the \$305,000 IRS annual compensation limit for 2022). The matching contributions vest on a graduated scale based on completed years of service. Catch-up contributions and traditional after-tax contributions are not eligible for employer matching contributions.

**16. Share-Based Compensation**

BPLC operates certain share plans for employees of Barclays Group, including employees of the Company. Shares for distribution under these plans are sourced from newly issued shares and/or market purchased ('existing') shares. Existing shares are sourced via a trust and are transferred to participants on vesting or, if later, at the end of any applicable holding period. Awards vest when specific vesting conditions are satisfied. The costs of these compensation plans are funded in cash by the participating companies.

Compensation awards are approved annually by the Board Remuneration Committee of BPLC. Depending upon the threshold limit, a portion of such compensation award for the employees will be awarded in BPLC stock. The current deferred share plans which the Company's employees participate in are as follows:

**Share Value Plan ("SVP")**

The SVP was introduced in March 2010 and approved by shareholders (to enable Executive Directors of BPLC to participate and the use of newly issued shares to satisfy awards) at the BPLC Annual General Meeting ("AGM") in April 2011 and 2021. Shareholders approved the renewal of the SVP for a further 10 years at the BPLC AGM in May 2021. SVP awards are granted to participants in the form of a conditional right to receive BPLC shares or provisional allocations of BPLC shares which vest or are considered for release over a period of three, four, five or seven years. Participants do not pay to receive an award or to receive a release of shares. SVP awards are also made to eligible employees for recruitment purposes under schedule 1 to the SVP. All awards are subject to potential forfeiture in certain leaver scenarios. Awards granted to Material Risk Takers ("MRTs") are subject to a six or twelve month holding period ("Holding Period") during which the shares cannot be sold, charged, pledged, mortgaged or otherwise encumbered. During the Holding Period the participant will be the beneficial owner of the shares and will be entitled to receive any dividends on the shares and to vote at any general meeting of Barclays.

**Deferred Share Value Plan ("DSVP")**

The DSVP was introduced in February 2017. The terms of the DSVP are materially the same as the terms of the SVP as described above, except that Executive Directors of BPLC are not eligible to participate in the DSVP and the DSVP uses market-purchased shares only.

**Other Arrangements**

In addition to the above plans, the Group operates a number of other plans and share-based arrangements in which employees of the Company participate, none of which are individually or in aggregate material in relation to the charge for the year or the dilutive effect of outstanding share awards. Included within other arrangements are Sharepurchase (both UK and overseas), Sharesave (UK and Ireland), Role Based Pay ("RBP"), and Share Incentive Award (Holding Period) ("SIA (HP)"). RBP was introduced in March 2014 and is an element of fixed pay which is reviewed annually. It is partly delivered in BPLC shares for the most senior employees on a quarterly basis and subject to a three or five year holding period. SIA (HP) was introduced in accordance with Prudential Regulation Authority's Remuneration Rules for employees identified as MRTs, to have 50% of the non-deferred portion of their annual incentive delivered in the form of BPLC shares. The shares are subject to a twelve month Holding Period.

**Barclays Capital Inc.**  
**Notes to Statement of Financial Condition (Unaudited)**  
**June 30, 2022**

DSVP and SVP awards are nil cost awards on which the performance conditions are substantially completed at the date of grant. Consequently, the fair value of these awards is based on market value at the date of grant.

For the purposes of determining the expected life and number of shares to vest/be released, historical vesting/release patterns have been used, together with an assumption that a certain percentage of awards will lapse due to leavers.

The number of awards and restricted stock shares outstanding at June 30, 2022 is set forth below (in millions) where the awards or shares granted relate to BPLC shares:

	<u>DSVP and SVP <sup>(a)</sup></u>	<u>Other</u>
<b>Outstanding at beginning of year</b>	<b>188.5</b>	<b>0.0</b>
Granted in the year	134.8	43.7
Less: Released in the year	(83.8)	(43.7)
Less: Lapsed in the year	(4.0)	-
Transferred in the year	(3.1)	0.1
<b>Outstanding at end of six months</b>	<b>232.4</b>	<b>0.1</b>
<b>Of which are exercisable</b>	<b>-</b>	<b>0.0</b>

<sup>(a)</sup> Awards / shares granted relate to BPLC shares.

The table below shows the June 30, 2022 weighted average fair values at the date of grant, weighted average exercise price at the date of exercise/release of shares, the weighted average contractual remaining life and the number of outstanding options/awards:

	<u>Granted in the year</u>		<u>Outstanding at June 30, 2022</u>	
	Weighted average fair value at grant (\$)	Weighted average exercise price (\$)	Weighted average remaining contractual life (years)	Number of option/awards outstanding (in millions)
DSVP/SVP	1.74	1.95	2.00	232.39
Other	1.95-2.13	1.94-1.95	0.00-3.00	0.07

**17. Financial Instruments with Off-Balance Sheet Risk**

In the normal course of its business, the Company enters into transactions involving financial instruments with off-balance sheet risk in order to meet financing and hedging needs of customers (including brokers and dealers) and to reduce the Company's own exposure to market and interest rate risk in connection with trading activities. These financial instruments include forward and futures contracts, options contracts, and options on futures contracts. Each of these financial instruments contains varying degrees of off-balance sheet risk as changes in the fair values of the financial instruments subsequent to June 30, 2022 may, in certain circumstances, be in excess of the amounts recognized in the Statement of Financial Condition. The Company is also at risk from the potential inability of counterparties to perform under the terms of the contracts.

The Company also bears market risk for unfavorable changes in the price of financial instruments sold but not yet purchased. In the normal course of business, the Company enters into securities sales transactions. For these transactions, the Company may incur a loss if the security the Company

# Barclays Capital Inc.

## Notes to Statement of Financial Condition (Unaudited)

### June 30, 2022

---

is obligated to deliver is not received and the market value has increased over the contract amount of the sale transaction.

The Company also executes customer transactions in commodity futures contracts (including options on futures) and OTC cleared swaps, all of which are transacted on a margin basis subject to individual exchange regulations. These transactions may expose the Company to off-balance sheet risk in the event margin deposits are insufficient to fully cover losses that customers may incur. In the event the customer fails to satisfy its obligations, the Company may be required to purchase or sell financial instruments at prevailing market prices in order to fulfill the customer's obligations.

In the normal course of business, the Company may pledge or deliver customer or other counterparty securities as collateral in support of various financing sources such as bank loans, Securities loaned and Repurchase Agreements. Additionally, the Company pledges customer securities as collateral to satisfy margin deposits of various exchanges. In the event the counterparty is unable to meet its contracted obligation to return customer securities pledged as collateral, the Company may be exposed to the risk of acquiring the securities at current market prices in order to return them to the owner.

#### 18. Collateral, Commitments and Contingencies

##### Collateral

The Company receives financial instruments as collateral, primarily in connection with Resale Agreements, Securities borrowed, derivatives transactions, and customer margin loans. In many cases, the Company is permitted to deliver, repledge or otherwise use these financial instruments in connection with entering into Repurchase Agreements, securities lending agreements, other secured financings, collateralizing derivative transactions, and meeting the Company or customer settlement requirements. At June 30, 2022, the approximate fair value, excluding the impact of netting, of financial instruments received as collateral by the Company, in connection with Resale Agreements, Securities borrowed and customer margin loans, that the Company was permitted to sell or repledge was \$221,488 million, of which \$194,384 million was sold or repledged.

The amount of collateral that was sold or repledged by the Company included the following:

- \$21,838 million of securities collateral that was pledged under Repurchase Agreements and clearing house margin and guarantee fund requirements which cannot be resold or repledged by the counterparty.
- \$172,495 million of securities collateral that was pledged under Repurchase Agreements, securities lending and prime brokerage agreements which can be resold or repledged by the counterparty.
- \$51 million of securities collateral that was received in connection with certain securities-for-securities transactions in which the Company is a lender, which can be resold or repledged by the counterparty.

\$14,834 million of securities collateral pledged to counterparties can be resold or repledged by the counterparty and is included in Financial instruments owned, at fair value in the Statement of Financial Condition.

##### Commitments

At June 30, 2022, the Company had committed \$5,969 million in forward starting collateralized agreements, primarily resale transactions. Additionally, the Company had \$11,869 million in forward

# Barclays Capital Inc.

## Notes to Statement of Financial Condition (Unaudited)

### June 30, 2022

---

starting collateralized financings, primarily repurchase transactions. Certain forward starting agreements are carried at their fair value if managed on a fair value basis.

As a clearing member of the Mortgage Backed Securities Division (“MBSD”) and Government Securities Division (“GSD”) of the Fixed Income Clearing Corporation (“FICC”), the Company is committed to provide additional liquidity resources under the Capped Contingency Liquidity Facility (“CCLF”) by entering into resale agreements in the event of another member’s default. As of June 30, 2022, the Company’s maximum commitment to the MBSD and GSD CCLF was \$1,434 million and \$181 million, respectively, of which no utilization had occurred. The CCLF amount is calculated biannually by the FICC based on each member’s volume of activity and may fluctuate in future periods.

#### **Contingencies**

The Company and the Group face legal, competition and regulatory challenges, many of which are beyond our control. The extent of the impact of these matters on the Company cannot always be predicted but may materially impact its operations, financial results, condition and prospects. Matters arising from a set of similar circumstances can give rise to either a contingent liability or a provision, or both, depending on the relevant facts and circumstances.

#### **Investigations into LIBOR and other benchmarks and related civil actions**

Regulators and law enforcement agencies, including certain competition authorities, from a number of governments have conducted investigations relating to Barclays Bank PLC’s involvement in allegedly manipulating certain financial benchmarks, such as LIBOR. Various individuals and corporates in a range of jurisdictions have threatened or brought civil actions against the Group and other banks in relation to the alleged manipulation of LIBOR and/or other benchmarks.

#### **USD LIBOR civil actions**

The majority of the USD LIBOR cases, which have been filed in various US jurisdictions, have been consolidated for pre-trial purposes in the US District Court in the Southern District of New York (SDNY). The complaints are substantially similar and allege, among other things, that Barclays PLC, Barclays Bank PLC, the Company and other financial institutions individually and collectively violated provisions of the US Sherman Antitrust Act (Antitrust Act), the US Commodity Exchange Act (CEA), the US Racketeer Influenced and Corrupt Organizations Act (RICO), the Securities Exchange Act of 1934 and various state laws by manipulating USD LIBOR rates.

Putative class actions and individual actions seek unspecified damages with the exception of one lawsuit, in which the plaintiffs are seeking no less than \$100 million in actual damages and additional punitive damages against all defendants, including Barclays Bank PLC. Some of the lawsuits also seek trebling of damages under the Antitrust Act and RICO. Barclays Bank PLC has previously settled certain claims. Two class action settlements, where Barclays Bank PLC has respectively paid \$7.1 million and \$20 million, have received final court approval. Barclays Bank PLC also settled two further matters for \$7.5 million and \$1.95 million, respectively.

#### **Sterling LIBOR civil actions**

In 2016, two putative class actions filed in the SDNY against Barclays Bank PLC, the Company and other Sterling LIBOR panel banks alleging, among other things, that the defendants manipulated the Sterling LIBOR rate in violation of the Antitrust Act, CEA and RICO, were consolidated. The defendants’ motion to dismiss the claims was granted in 2018. The plaintiffs have appealed the dismissal.

#### **Japanese Yen LIBOR civil actions**

In 2012, a putative class action was filed in the SDNY against Barclays Bank PLC and other Japanese Yen LIBOR panel banks by a lead plaintiff involved in exchange-traded derivatives and

# Barclays Capital Inc.

## Notes to Statement of Financial Condition (Unaudited)

### June 30, 2022

---

members of the Japanese Bankers Association's Euroyen Tokyo Interbank Offered Rate (Euroyen TIBOR) panel. The complaint alleges, among other things, manipulation of the Euroyen TIBOR and Yen LIBOR rates and breaches of the CEA and the Antitrust Act. In 2014, the court dismissed the plaintiff's antitrust claims, and, in 2020, the court dismissed the plaintiff's remaining CEA claims. The plaintiff has appealed the lower court's dismissal of such claims.

In 2015, a second putative class action, making similar allegations to the above class action, was filed in the SDNY against Barclays PLC, Barclays Bank PLC and the Company. Barclays and the plaintiffs have reached a settlement of \$17.75 million for both actions, which is subject to court approval.

#### **SIBOR/SOR civil action**

In 2016, a putative class action was filed in the SDNY against Barclays PLC, Barclays Bank PLC, the Company and other defendants, alleging manipulation of the Singapore Interbank Offered Rate (SIBOR) and Singapore Swap Offer Rate (SOR). The plaintiffs and remaining defendants (which include Barclays Bank PLC) have reached a joint settlement to resolve this matter for \$91 million, which has received preliminary court approval. A final court approval hearing has been scheduled for November 2022. The financial impact of Barclays' share of the joint settlement is not expected to be material to the Group's or Company's operating results, cash flows or financial position.

#### **ICE LIBOR civil actions**

In 2019, several putative class actions were filed in the SDNY against a panel of banks, including Barclays PLC, Barclays Bank PLC, the Company, other financial institution defendants and Intercontinental Exchange Inc. and certain of its affiliates (ICE), asserting antitrust claims that defendants manipulated USD LIBOR through defendants' submissions to ICE. These actions have been consolidated. The defendants' motion to dismiss was granted in 2020 and the plaintiffs appealed. In February 2022, the dismissal was affirmed on appeal. The plaintiffs have not sought U.S. Supreme Court review. This matter is now concluded.

In August 2020, an ICE LIBOR-related action was filed by a group of individual plaintiffs in the US District Court for the Northern District of California on behalf of individual borrowers and consumers of loans and credit cards with variable interest rates linked to USD ICE LIBOR. The plaintiffs' motion seeking, among other things, preliminary and permanent injunctions to enjoin the defendants from continuing to set LIBOR or enforce any financial instrument that relies in whole or in part on USD LIBOR was denied. The defendants have moved to dismiss the case.

#### **Credit Default Swap civil action**

A putative antitrust class action is pending in New Mexico federal court against Barclays Bank PLC, the Company and various other financial institutions. The plaintiffs, the New Mexico State Investment Council and certain New Mexico pension funds, allege that the defendants conspired to manipulate the benchmark price used to value Credit Default Swap (CDS) contracts at settlement (i.e. the CDS final auction price). The plaintiffs allege violations of US antitrust laws and the CEA, and unjust enrichment under state law. The defendants have moved to dismiss the case.

#### **Foreign Exchange investigations and related civil actions**

In 2015, the Group reached settlements totalling approximately \$2.38 billion with various US federal and state authorities and the FCA in relation to investigations into certain sales and trading practices in the Foreign Exchange market.

The European Commission announced two settlements in May 2019 and the Group paid penalties totalling approximately €210 million (\$249 million). In June 2019, the Swiss Competition Commission announced two settlements and the Group paid penalties totalling approximately CHF 27 million (\$29 million). In December 2021, the European Commission announced a final settlement which required

# Barclays Capital Inc.

## Notes to Statement of Financial Condition (Unaudited)

### June 30, 2022

---

the Group to pay penalties totalling approximately €54 million, which amount has been provided for in previous periods. The financial impact of any ongoing investigations is not expected to be material to the Group's or Company's operating results, cash flows or financial position.

Various individuals and corporates in a range of jurisdictions have threatened or brought civil actions against the Group and other banks in relation to alleged manipulation of Foreign Exchange markets.

#### **FX opt out civil action**

In 2018, Barclays Bank PLC and the Company settled a consolidated action filed in the SDNY, alleging manipulation of Foreign Exchange markets (Consolidated FX Action), for a total amount of \$384 million. Also in 2018, a group of plaintiffs, who opted out of the Consolidated FX Action, filed a complaint in the SDNY against Barclays PLC, Barclays Bank PLC, the Company and other defendants. Some of the plaintiffs' claims were dismissed in 2020.

#### **Retail basis civil action**

In 2015, a putative class action was filed against several international banks, including Barclays PLC and the Company, on behalf of a proposed class of individuals who exchanged currencies on a retail basis at bank branches (Retail Basis Claims). The SDNY has ruled that the Retail Basis Claims are not covered by the settlement agreement in the Consolidated FX Action. The Court subsequently dismissed all Retail Basis Claims against the Group and all other defendants. The plaintiffs have filed an amended complaint.

#### **Non-US FX civil actions**

Legal proceedings have been brought or are threatened against Barclays PLC, Barclays Bank PLC, the Company and Barclays Execution Services Limited (BX) in connection with alleged manipulation of Foreign Exchange in the UK, a number of other jurisdictions in Europe, Israel, Brazil and Australia. Additional proceedings may be brought in the future.

The above-mentioned proceedings include two purported class actions filed against Barclays PLC, Barclays Bank PLC, BX, the Company and other financial institutions in the UK Competition Appeal Tribunal (CAT) in 2019 following the settlements with the European Commission described above. The CAT refused to certify these claims in the first quarter of 2022 although the claimants are seeking permission to appeal. Also in 2019, a separate claim was filed in the UK in the High Court of Justice (High Court), and subsequently transferred to the CAT, by various banks and asset management firms against Barclays Bank PLC and other financial institutions alleging breaches of European and UK competition laws related to FX trading.

#### **Metals related civil actions**

A number of US civil complaints, each on behalf of a proposed class of plaintiffs, have been consolidated and transferred to the SDNY. The complaints allege that Barclays Bank PLC and other members of The London Gold Market Fixing Ltd. manipulated the prices of gold and gold derivative contracts in violation of the Antitrust Act and other federal laws. The parties have reached a joint settlement to resolve this matter for \$50 million, which has received preliminary court approval, with the final court approval hearing scheduled for August 2022. The financial impact of Barclays' share of the joint settlement is not expected to be material to the Group's operating results, cash flows or financial position. A separate US civil complaint by a proposed class of plaintiffs against a number of banks, including Barclays Bank PLC, the Company and BX, alleging manipulation of the price of silver in violation of the CEA, the Antitrust Act and state antitrust and consumer protection laws, has been dismissed as against the Barclays entities. The plaintiffs have the option to seek the court's permission to appeal.

# Barclays Capital Inc.

## Notes to Statement of Financial Condition (Unaudited)

### June 30, 2022

---

Civil actions have also been filed in Canadian courts against Barclays PLC, Barclays Bank PLC, Barclays Capital Canada Inc. and the Company on behalf of proposed classes of plaintiffs alleging manipulation of gold and silver prices.

#### **Residential mortgage-backed securities civil action**

In 2020, a civil litigation claim was filed in the New Mexico First Judicial District Court by the State of New Mexico against six banks, including the Company, on behalf of two New Mexico state pension funds and the New Mexico State Investment Council relating to legacy Residential Mortgage-Backed Securities (RMBS) purchases. As to the Company, the complaint alleges that the funds purchased approximately \$22 million in RMBS underwritten by the Company. The parties have reached a joint settlement to resolve this matter for \$32.5 million. The settlement was paid in April 2022. The financial impact of the Company's share of the joint settlement is not material to the Company's operating results, cash flows or financial position.

#### **Government and agency securities civil actions**

##### ***Treasury auction securities civil actions***

Consolidated putative class action complaints filed in US federal court against Barclays Bank PLC, the Company and other financial institutions under the Antitrust Act and state common law allege that the defendants (i) conspired to manipulate the US Treasury securities market and/or (ii) conspired to prevent the creation of certain platforms by boycotting or threatening to boycott such trading platforms. The court dismissed the consolidated action in March 2021. The plaintiffs filed an amended complaint. The defendants' motion to dismiss the amended complaint was granted in March 2022. The plaintiffs are appealing this decision.

In addition, certain plaintiffs have filed a related, direct action against the Company and certain other financial institutions, alleging that defendants conspired to fix and manipulate the US Treasury securities market in violation of the Antitrust Act, the CEA and state common law.

##### ***Supranational, Sovereign and Agency bonds civil actions***

Civil antitrust actions have been filed in the SDNY and Federal Court of Canada in Toronto against Barclays Bank PLC, the Company, BX, Barclays Capital Securities Limited and, with respect to the civil action filed in Canada only, Barclays Capital Canada, Inc. and other financial institutions alleging that the defendants conspired to fix prices and restrain competition in the market for US dollar-denominated Supranational, Sovereign and Agency bonds.

In one of the actions filed in the SDNY, the court granted the defendants' motion to dismiss the plaintiffs' complaint. The dismissal was affirmed on appeal; however, the district court subsequently informed the parties of a potential conflict. The motion to dismiss was assigned to a new district court judge and the plaintiffs have moved to vacate the dismissal order. The plaintiffs have voluntarily dismissed the other SDNY action. In the Federal Court of Canada action, the plaintiffs reached settlements with a small number of banks in 2020 (not including Barclays Capital Canada, Inc.). The plaintiffs have commenced the class certification process. There is no court scheduled deadline and the action remains at an early stage.

##### ***Variable Rate Demand Obligations civil actions***

Civil actions have been filed against Barclays Bank PLC, the Company and other financial institutions alleging the defendants conspired or colluded to artificially inflate interest rates set for Variable Rate Demand Obligations (VRDOs). VRDOs are municipal bonds with interest rates that reset on a periodic basis, most commonly weekly. Two actions in state court have been filed by private plaintiffs on behalf of the states of Illinois and California. Three putative class action complaints have been consolidated in the SDNY. In the consolidated SDNY class action, certain of the plaintiff's claims were dismissed in November 2020 and defendants' motion for partial dismissal of the amended

### June 30, 2022

---

consolidated complaint was granted in part and denied in part in June 2022. In the California action, the plaintiffs' claims were dismissed in June 2021. The plaintiffs have appealed the dismissal.

#### **Odd-lot corporate bonds antitrust class action**

In 2020, the Company, together with other financial institutions, were named as defendants in a putative class action. The complaint alleges a conspiracy to boycott developing electronic trading platforms for odd-lots and price-fixing. The plaintiffs demand unspecified money damages. The defendants' motion to dismiss was granted in 2021 and the plaintiffs have appealed the dismissal. The district court subsequently informed the parties of a potential conflict and the case was reassigned to a new district court judge. The plaintiffs have filed a motion seeking a ruling that would vacate the dismissal and allow the plaintiffs to file an amended complaint if the appeals court remands the case for further proceedings.

#### **Interest rate swap and credit default swap US civil actions**

Barclays PLC, Barclays Bank PLC and the Company, together with other financial institutions that act as market makers for interest rate swaps (IRS) are named as defendants in several antitrust class actions which were consolidated in the SDNY in 2016. The complaints allege the defendants conspired to prevent the development of exchanges for IRS and demand unspecified money damages.

In 2018, trueEX LLC filed an antitrust class action in the SDNY against a number of financial institutions including Barclays PLC, Barclays Bank PLC and the Company based on similar allegations with respect to trueEX LLC's development of an IRS platform. In 2017, Tera Group Inc. filed a separate civil antitrust action in the SDNY claiming that certain conduct alleged in the IRS cases also caused the plaintiff to suffer harm with respect to the Credit Default Swaps market. In 2018 and 2019, respectively, the court dismissed certain claims in both cases for unjust enrichment and tortious interference but denied motions to dismiss the federal and state antitrust claims, which remain pending.

#### **Shareholder derivative action**

In November 2020, a purported Barclays shareholder filed a putative derivative action in New York state court against the Company and a number of current and former members of the Board of Directors of Barclays PLC and senior executives or employees of the Group. The shareholder filed the claim on behalf of nominal defendant Barclays PLC, alleging that the individual defendants harmed the company through breaches of their duties, including under the Companies Act 2006. The plaintiff seeks damages on behalf of Barclays PLC for the losses that Barclays PLC allegedly suffered as a result of these alleged breaches. An amended complaint was filed in April 2021, which the Company and certain other defendants moved to dismiss. The motion to dismiss was granted in April 2022. The plaintiffs are appealing the decision.

#### **Over-issuance of securities in the US**

Barclays Bank PLC maintains a US shelf registration statement with the Securities and Exchange Commission (SEC) in order to issue securities to US investors. In May 2017, Barclays Bank PLC was the subject of an SEC settlement order as a result of which it lost its status as a "well-known seasoned issuer" (or WKSII) and was required to register a specified amount of securities to be issued under any US shelf registration statements filed with the SEC.

On 10 March 2022, executive management became aware that Barclays Bank PLC had issued securities materially in excess of the set amount under its 2019 US shelf registration statement (2019 F-3) and subsequently became aware that securities had also been issued in excess of the set amount under the predecessor US shelf registration statement (the Predecessor Shelf). The securities that have been over-issued comprise structured notes and exchange traded notes (ETNs). Securities issued in excess of the amount registered are considered to be "unregistered securities"

## Notes to Statement of Financial Condition (Unaudited)

### June 30, 2022

---

for the purposes of US securities laws, with certain purchasers of those securities having a right to recover, upon the tender of such security to Barclays Bank PLC, the consideration paid for such security with interest, less the amount of any income received, or to recover damages from Barclays Bank PLC if the purchaser no longer owns the security and had sold the security at a loss (the Rescission Price). Barclays Bank PLC launched a rescission offer on 1 August 2022, by which Barclays Bank PLC offered to repurchase the relevant affected securities for the rescission price (the Rescission Offer). The Rescission Offer expired on 12 September 2022. Although the Rescission Offer is expected to reduce liability with respect to potential private civil claims, it will not necessarily prevent such claims from being asserted against Barclays Bank PLC and/or its affiliates, including claims under applicable US federal securities laws.

Further, the Rescission Offer does not bar the SEC and other regulators from pursuing enforcement actions against Barclays Bank PLC and its affiliates, which are expected to result in fines, penalties and/or other sanctions. The Group is engaged with, and responding to inquiries and requests for information from, various regulators, including the SEC. The SEC's investigation into this matter is at an advanced stage and the Group is in discussions with the staff of the SEC's Division of Enforcement about resolving this matter.

As at 30 June 2022, Barclays PLC has recognised a balance sheet provision of £1,757 million (\$2,135 million) (December 2021: £220 million [\$267 million]) in relation to this matter, out of which £1,592 million (\$1,934 million) (December 2021: £220 million [\$267 million]) relates to the over-issuance of structured notes and £165 million (\$200 million) (December 2021: nil) relates to liabilities that could be incurred arising out of ongoing discussions in respect of a potential SEC resolution.

A contingent liability exists in relation to the over-issuance of ETNs due to evidentiary challenges and the high level of trading in the securities. A contingent liability also exists in relation to any potential civil claims or enforcement actions taken against Barclays Bank PLC and/or its affiliates, but Barclays Bank PLC is unable to assess the likelihood of liabilities that may arise out of such claims or actions.

Barclays Bank PLC and the Company entered into an agreement under which Barclays Bank PLC agreed to indemnify the Company against any losses, claims, damages or liabilities incurred by the Company arising out of the Company's purchase, sale or distribution of the affected securities that were issued in excess of the 2019 F-3 and the Predecessor Shelf. In light of such indemnification agreement, any losses or liabilities with respect to the over-issuance of securities under the 2019 F-3 and the Predecessor Shelf are not expected to have an adverse effect on the Company's financial condition or results of operation.

#### **Investigation into the use of unapproved communications platforms**

In July 2022, Barclays Bank PLC and the Company reached an agreement in principle with the staff of the SEC's Division of Enforcement and the staff of the Commodity Futures Trading Commission (CFTC) in connection with investigations by the SEC and the CFTC of Barclays Bank PLC, the Company and other financial institutions as part of a financial industry sweep regarding compliance with record-keeping obligations in connection with business-related communications sent over unapproved electronic messaging platforms. The SEC and the CFTC found that Barclays Bank PLC and the Company failed to comply with their respective record keeping rules, where such communications were sent or received by employees over electronic messaging channels that had not been approved by the bank for business use by employees. The proposed resolution with the SEC and the CFTC will include Barclays Bank PLC and the Company paying a combined \$125 million civil monetary penalty to the SEC and a \$75 million civil monetary penalty to the CFTC. There will also be non-financial components to the settlements which have yet to be finalised and agreed with the SEC and CFTC. Subject to final agreement of the terms of the settlements and related

# Barclays Capital Inc.

## Notes to Statement of Financial Condition (Unaudited)

### June 30, 2022

---

documentation, as well as the SEC's and CFTC's approval, the civil monetary penalties are expected to be paid during the fourth quarter of 2022.

#### **General**

The Company and the Group are engaged in various other legal, competition and regulatory matters in the US and a number of overseas jurisdictions, including those which arise in the ordinary course of business from time to time.

The Company and the Group are also subject to enquiries and examinations, requests for information, audits, investigations and legal and other proceedings by regulators, governmental and other public bodies in connection with its business. The Company and the Group as applicable are cooperating with the relevant authorities and keeping all relevant agencies briefed as appropriate in relation to these matters and others described in this note on an ongoing basis.

At the present time, the Company does not expect the ultimate resolution of any of these other matters to have a material adverse effect on its financial position.

#### **19. Guarantees**

ASC 460, *Guarantees* ("ASC 460"), requires that a guarantor recognizes, at the inception of a guarantee, a liability in an amount equal to the fair value of the obligation undertaken in issuing the guarantee. US GAAP defines a guarantee as a contract that contingently requires the guarantor to pay a guaranteed party based upon: (a) changes in an underlying asset, liability or equity security of the guaranteed party; or (b) a third party's failure to perform under a specified agreement. However, US GAAP excludes from the recognition provisions of ASC 460, guarantees issued between parents and their subsidiaries or between corporations under common control. Therefore, certain guarantees between the Company and other Group entities are not recognized in the Statement of Financial Condition of the Company but are disclosed herein (see also Note 14, "Transactions with Affiliated Companies"). The Company also enters into certain derivative contracts that meet the definition of a guarantee under ASC 460. Guarantees are defined to include derivative contracts that contingently require a guarantor to make payment to a guaranteed party based on changes in an underlying that relates to an asset, liability or equity security of a guaranteed party. Derivatives that meet the definition of a guarantee include certain written equity options.

In the ordinary course of its business, the Company indemnifies certain service providers, such as clearing and custody agents, trustees and administrators, against specified potential losses in connection with their acting as an agent of, or providing services to, the Company, its customers and its affiliates. In addition, the Company is a member of payment, clearing and settlement networks as well as securities exchanges around the world that may require the Company to meet the obligations of such networks and exchanges in the event of member defaults. In connection with its prime brokerage and clearing businesses, the Company may agree to clear and settle on behalf of its clients the transactions entered into by them with other brokerage firms. The Company's obligations in respect of such transactions are secured by the assets in the client's account as well as any proceeds received from the transactions cleared and settled by the Company on behalf of the client. The Company is unable to develop an estimate of the maximum payout under these guarantees and indemnifications. However, management believes that it is unlikely the Company will have to make material payments under these arrangements, and no liabilities related to these guarantees and indemnifications have been recognized in the Statement of Financial Condition.

The Company's derivatives that act as guarantees are summarized below and are shown on a gross basis prior to counterparty netting as of June 30, 2022 (in millions):

Written Equity Options	\$ 7,611	\$ 111,466

**20. Counterparty Credit Risk Management**

As a securities broker-dealer, the Company is engaged in various securities trading and brokerage activities. The Company's securities transactions, both as principal and as agent, are executed with counterparties including brokers and dealers, central clearers and exchanges, commercial banks, insurance companies, pension plans, mutual funds, hedge funds and other financial institutions. The Company's exposure to credit risk is associated with the nonperformance of counterparties in fulfilling their contractual obligations.

The Company's policy is to monitor its customer and counterparty risk through the use of a variety of credit and market exposure reporting and control procedures. This includes marking to market securities transactions and collateral while requiring adjustments to collateral levels where appropriate. In connection with its securities financing activities and derivatives trading activities, the Company may enter into master netting agreements and collateral arrangements with counterparties. These agreements may provide the Company with the ability to offset a counterparty's rights and obligations, request additional collateral when necessary or liquidate the collateral in the event of counterparty default. In addition, the Company has a policy of reviewing the credit standing of each counterparty and customer with whom it conducts business at the beginning of a credit relationship, and subsequently as considered necessary for continuous oversight.

Concentrations of credit risk exist when groups of issuers or counterparties have similar business characteristics or are engaged in like activities. The Company minimizes this risk through portfolio limits and portfolio monitoring by both counterparty and activity type, to complement those similar controls done at the individual and group counterparty level.

**21. Regulatory Requirements**

**Cash and Securities Segregated Pursuant to Federal and Other Regulations**

Under the provisions of the SEC's Rule 15c3-3, the Company segregated \$2,797 million and \$1,500 million of qualified securities and cash, respectively, within special reserve accounts for the exclusive benefit of customers at June 30, 2022.

The Company is also required to perform a computation of reserve requirements for Proprietary Accounts of Broker-Dealers ("PAB") pursuant to SEC Rule 15c3-3. As of June 30, 2022, the Company segregated \$29 million of cash in a special reserve bank account to meet the PAB requirement.

As an FCM, the Company is required to segregate funds in a cleared swap customer account, a secured funds account and a segregated funds account under rules mandated by the CFTC. For these purposes, \$669 million, \$1,333 million, and \$63 million, respectively, were segregated and held in accounts at non affiliate banks as of June 30, 2022.

**Net Capital**

The Company is subject to the SEC's Uniform Net Capital Rule 15c3-1 and the CFTC Regulation 1.17 which require the maintenance of minimum net capital.

Under 15c3-1, the Company has elected to use the alternative method which requires that the Company maintain minimum net capital of the greater of 2% of aggregate debit balances arising from

**Barclays Capital Inc.**  
**Notes to Statement of Financial Condition (Unaudited)**  
**June 30, 2022**

---

customer transactions, as defined in 15c3-1, or 8% of the total risk margin requirements for all positions carried in customer and non-customer accounts, as defined in CFTC Regulation 1.17.

At June 30, 2022, the Company had net capital of \$6,395 million, which was 20.15% of aggregate debit items and \$4,300 million in excess of the minimum net capital requirement of \$2,095 million.

**22. Subsequent Events**

The Company evaluated subsequent events from July 1, 2022 through September 12, 2022, the date the Statement of Financial Condition was available to be issued.

In connection with the investigation into the use of unapproved communications platforms, in July 2022, Barclays Bank PLC and the Company reached an agreement in principle with the staff of the SEC's Division of Enforcement and the staff of the Commodity Futures Trading Commission to resolve the investigations. For further details, please refer to Note 18, "Collateral, Commitments and Contingencies".

On August 3, 2022, the Company issued \$1,300 million of Subordinated debt and simultaneously repaid and reduced its committed revolving credit facility with its parent, Barclays Group US Inc., by the same amount.

On August 19, 2022, the Company distributed a \$1,300 million dividend to its parent, Barclays Group US Inc., upon receiving Board of Directors and regulatory approval.
